

DS108

portable soundmasker

Features:

- compact Masking System
- analog Masking Source
- light Weight & Portable
- 12 Foot Power Cord
- 110-120 Volts: 50-60 Hertz

Description:

The DS108 Privacy Provider emits a precisely enhanced analog signal that covers, or masks, intelligible conversation and distracting outside noises within your business environment. There is a volume control and a low-pass filter that can be adjusted to meet your needs for loudness and tone. It is totally portable and weighs 10.2 ounces. It is warm gray in color and is 1 inch high by 3.75 inches wide by 6.35 inches long. It plugs into any standard wall outlet (110-120 Volts: 50-60 Hertz).

The DS108 Privacy Provider is designed for small in-room placement where a central masking system is inappropriate. It can be used in any environment such as: Secretarial Areas, Social Service Office, Human Resources Areas, CPA Firms, financial Offices, Law Offices, "Closing Offices", Doctor's Offices, Examination Rooms, Patient Waiting Rooms, Out-Patient Surgeries, Psychotherapy Offices, Dental Offices, Home Offices, Multi-Tenant Apts. & Condos, Dormitories, Bedrooms for Restless Sleepers, Etc. The uses are unlimited. If you do not want to hear others; place the unit by you (the listener). If you do not want others to hear you; place the unit by them. When privacy levels are inadequate between two rooms, place a unit in each room.
